

Mechanical separator using centrifugal force to remove large and high-volume dust from industrial applications.

- An economical solution to a wide range of dust collection problems
- Excellent for high dust load, high temperature, and product recovery applications
- Can be used alone, with optional bag filter assembly, or as a pre-cleaner
- Applications from 300 - 13,000 cfm (510 - 22,082 m³/h)
- Heavy-duty construction for long life and low maintenance
- Meets most seismic and 90 mph (145 kmph), Exp C wind load ratings
- Removable cone section for easy replacement

Cyclone Dust Collector
with Optional Bag Filter Assembly

Fractional Efficiency is the ratio of particles collected to particles entering the cyclone.

This chart illustrates the efficiency* of a Cyclone collector with and without an optional filter bag assembly under clean, partially-loaded, and fully-loaded filter bag conditions.

* Actual efficiency may vary depending on the application. Dust concentration, airflow, particle shape, and density affect filtration efficiency.

OPERATIONAL EXPLANATION

Dust-laden air enters the unit through the air inlet and is diverted by a helical baffle. Centrifugal force moves the heavy dust particles to the interior sidewalls and carries them to the base of the unit. Cleaned air is carried through the inner cylinder and discharges to atmosphere or optional afterfilters.

MULTIPLE RATING TABLE

Model	Nominal Airflow Range*		External Static Pressure ("wg)	Inlet Velocity	
	cfm	m ³ /h		fpm	m/min

* Based on clean filters.

** Model 36-20 and 36-30 available with direct- or belt-drive blowers. Model 44 available with belt-drive blower only.

† Up to 103 ft³ (2.92 m³) hopper available.

BASE OPTIONS

Cabinet Base

Hopper Base

Two-Drum Style
55-Gallon Drum Base
(optional)

Surge Hopper
(optional)

STANDARD FEATURES & AVAILABLE OPTIONS

STANDARD	OPTIONAL
Inlet assembly	Power pack
55-gallon (208.2-liter) drum base for Models 12 through 36	Explosion-proof motors
TEFC motor with 60 Hz 1 HP and larger are EISA compliant	50 Hz, single phase motors
103 cu. ft. hopper and legs for Model 44	Steel or aluminum fan wheels
208/230/460/60/3 voltages	Hopper base
10-year warranty	Two 55-gallon (208.2-liter) drum base for Models 20, 24, and 30
	Cabinet base for Models 12, 16, 20, 24, and 30
	Surge hopper
	Silencer
	Exhaust accessories
	Attenuator
	Bag filter options
	Bag filter enclosure
	Explosion vent
